WASHINGTON, FEB. 18.—CHINA HAS DELIVERED TO GREAT BRITAIN, FRANCE, RUSSIA AND THE UNITED STATES A MEMORANDUM OF DEMANDS MADE BY JAPAN IN THE LATTER PART OF JANUARY. THEY DIFFER MATERIALLY FROM THE ELEVEN DEMANDS COMMUNICATED TO THE POWERS BY THE JAPANESE GOVERNMENT ON FEBRUARY 9.

WITH BOTH THE CHINESE VERSION AND THE JAPANESE MEMORANDUM OF THE DEMANDS NOW IN HAND THE UNITED STATES TODAY DIRECTED AN INFORMAL INQUIRY, THROUGH ITS DIPLOMATIC REPRESENTATIVES AT BOTH TOKIO AND PEKING TO DETERMINE ACCURATELY WHAT IS THE PRESENT BASIS OF NEGOTIATIONS.

NO SHIPS FOR SALE

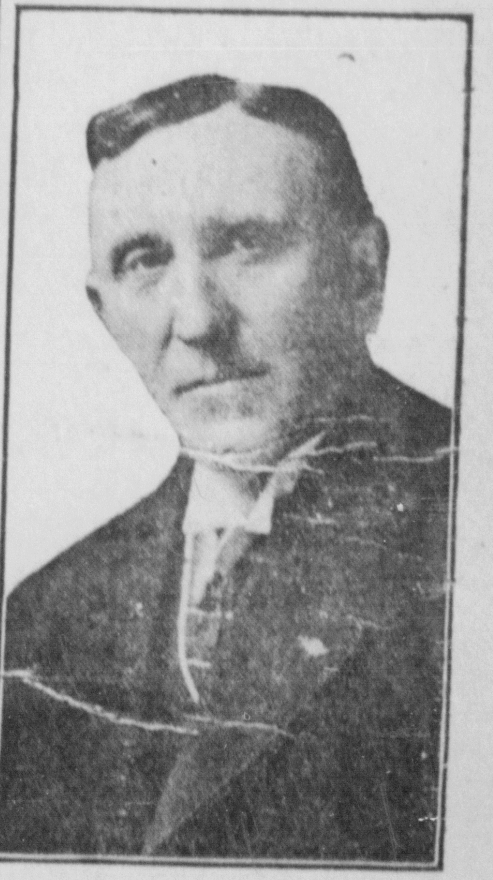

By Associated Press.
Washington, Feb. 18.—Only nine of the Hamburg-American line's smallest and most obsolete vessels are for sale, William G. Sickel, one of the two American vice-directors of the corporation, today told the Senate investigation committee. Advices from headquarters in Hamburg, he said, showed it was able to stand the losses of the war for 5 years and that he and his assistants had positive instructions to make no sacrifices because of financial conditions in Germany. Sickel testified he had no reason to believe any of a hundred or more persons who had inquired if the company wanted to sell ships since the outbreak of the war either directly or indirectly represented the United States. At no time, he said, had any Hamburg-American ships been offered for sale.

BLOCKADE IS ON AROUND ENGLAND

Cross Channel Vessels Continue As Heretofore But Some Lines End Traffic For Time Being --Important Events Expected Momentarily--German Victory Is a "Rear-Guard Skirmish."

By Associated Press.
London, Feb. 18.—The blockade of the United Kingdom by Germany is on, for with the dawn of February 18 there went into effect the German notice warning neutral shipping to avoid British waters. What will be the effect of this declaration will take a day or two to demonstrate. British shipping interests profess to feel no alarm; nevertheless all passenger traffic from England to Holland has been tied up. The lines to Scandinavia are still continuing to run. The cross channel services have announced that their schedules will be maintained as usual. In the meantime the British public is perusing the German note answering the American communication concerning the war zone blockade. It perceives no yielding on the part of the imperial government and it now awaits the pronouncement of Great Britain's expected retaliatory campaign. Illustrations showing British and German submarines are now being distributed to acquaint the shippers of merchant vessels with the appearance of their own and hostile undersea vessels so that they will not fire on or ram a British submarine by mistake. The British press now concedes that the Russians must have lost heavily in their retreat in East Prussia, but the newspapers refuse to credit Field Marshal Von Hindenburg with a great victory, pending the outcome of the rear guard action before the fortified line on the Niemen river. It is argued by British military experts that the German double flanking movement apparently has failed and this view also is held at Petrograd. The Hague, Feb. 18.—The government of the Netherlands has refused a request for war vessels to convoy Dutch merchant ships through the marine areas prescribed by Germany on the ground that such action would enhance the risks of ships without such escorts. The government advised all shipping firms to instruct their captains to halt their vessels at the first sight of a submarine and to give the submarine all desired information concerning the craft and its cargo. Buenos Ayres, Argentina, Feb. 18.—The German steamer Holger, which has arrived here, brings news that during the months of January and February the German auxiliary cruiser Crown Prince Wilhelm, operating on the northern coast of Brazil, sank the British steamer Hemisphire, the British steamer Potaro, and sailing ship Sumatra and the sailing ship Wilfred. The crews of these vessels are on board the Holger.

CREW OF ZEPPELIN INTERNEED

London, February 18.—Fourteen members of the crew of the Zeppelin which was destroyed by an explosion in France Island were rescued and will be interned by Danish authorities, says a dispatch from Copenhagen. The Zeppelin was cruising over the island with another dirigible when it caught fire and was compelled to descend, landing before the explosion took place. The destroyed Zeppelin was the L-3, one of the largest in commission. She was completed in 1914 and was 550 feet long. Commander Prinz says the situation when the fire broke out was critical. He feared that the bombs on board the airship would explode before he could get to the ground.

LIFE IN THE TRENCHES A HORRIBLE NIGHTMARE

Paris, February 18.—Georges Quin, a reservist who was cited in the papers of the day for holding out, one of all his section, against the attack of November 12 near Ypres, has some interesting notes of trench life. He writes: "Four days in the mud up to our knees when we stand up to fire; up to our armpits when we sit down to rest; as for lying down in it, that's to be thought of. "Here at the rest depot we find the illustrated papers with photographs of 'parlor trenches' such as haven't had the luck to see. The business in hand is transacted in a narrow ditch, a yard and a half wide, with a foot of mud, water or slush at the bottom of it, and a low ridge of earth on the edge toward the Germans who batter it with their shells and scatter it with their bullets. "Back of the lines in the 'cagnas' we call the covered trenches, and rest in the villages, life is dull and uninteresting—nothing to do but clean boots, clean guns and chaff when their turn in the trenches comes. Every man then is a bundle of nerves but that doesn't prevent the traditional Gallis wit and effrontery from showing itself. A business section had been burned with a loss of \$200,000.

FIGHT IS ON OVER MALLOW RIPPER BILL

Columbus, O., Feb. 18.—Republican senators today threatened an insurgent movement against the Mallow bill to replace the Agricultural Commission with a board of nine members when the bill came up for final consideration early in the session. An amendment prepared by Senator Gallagher of Madison to remove the State Fish and Game department from the authority of the proposed Agricultural Board precipitated the insurgent movement in which several Republicans were expected to join, while Democrats opposed the entire measure.

By Associated Press.
Columbus, O., Feb. 18.—Fares would have to be raised, more men employed and the pay of present employees reduced materially if the Ott bill, regulating hours of employment of motormen and conductors on street car and interurban lines is passed by the legislature, representatives of street car companies told the House Labor committee today. The bill provides that street car men may not be employed more than 9 hours within any eleven consecutive hours in a day, and they must have 13 consecutive hours of rest every day.

KRAMER BILL MAY BE PASSED

Columbus, O., Feb. 18.—Favorable action by the Senate on the Kramer house bill, providing a method of contesting referendum elections, seemed assured today when the Senate Elections Committee voted to report the measure with recommendation for passage. It was amended, however, by providing suit for recount of such ballots should be started in the Franklin County Common Pleas court instead of the Supreme Court, as the original bill specified.

The Chief Justice is given authority to designate a Common Pleas judge to preside in the Franklin County court in such a case. The case can be carried to the Supreme court.

BRITISH NOTE IS MADE PUBLIC

Washington, Feb. 18.—The text of the British supplementary note in reply to the protest of the United States last December against British interference with neutral trade was made public at the state department. The document is 7,000 words long and for the most part is taken up with a demonstration of the British contention that American trade with Europe is not suffering on account of any policy or action of the British government in its exercise of control of the seas. The American note protested against the British action in treating foodstuffs not consigned to the armed forces of the enemy as contraband, particularly when such cargoes were consigned to ports of neutral countries. To this the British reply that "an elaborate machinery has been organized by the enemy for supply of foodstuffs for the use of the German army from over seas." The British add that under these circumstances it would be absurd to give any definite pledge that in cases where the supplies can be proved to be for the use of the enemy forces they should be given complete immunity by the simple expedient of dispatching them to an agent in a neutral port.

Referring to the recent action by the German government in regard to government control of the food supplies in Germany, the British note contends that this has removed all distinction between the civil population and the armed forces.

GERMAN DECREE IS IN OPERATION

Extraordinary Precautions Taken Against Submarine Raids.

WARSHIPS GUARD BRITISH ISLES

English Military and Naval Departments Taking Every Possible Means to Protect the Nation Both Ashore and Afloat—French and British Merchant Ships Torpedoed in the Channel—England's Counter Stroke.

London, Feb. 18.—The German proclamation of a maritime war zone about the British Isles has now been in effect since midnight, and the full force of that country's submarine destructively is supposed to have been loosed in an effort to isolate Great Britain and ruin her shipping commerce.

The Germans, however, did not wait for the stroke of midnight to begin their campaign. They started, or rather they continued, their previous efforts Tuesday night when they torpedoed and sank to the bottom the British steam collier Dulwich, whose crew of thirty-one escaped solely by their own efforts, with the possible exception of two men. This attack was delivered at a point twenty miles northeast of Cape Heve, France, in the English channel. Shortly after the destruction of the boat a German submarine blew up and destroyed the French steamer Ville de Lille, off Barfleur, the crew saving themselves in the ten minutes allotted them by the German commander. A statement by the French ministry of marine announcing this fact contains the information that the submarine subsequently pursued a Norwegian steamer, which was saved by the arrival of French destroyers.

Some of the steamship lines giving service across the channel to points in France and Holland and across the

North sea to the Scandinavian countries will probably suspend their accommodation.

The principal concession which neutral shipping interests will make to the German threat is to paint the names and nationality of the vessels and their flags on the sides to guard against possible errors in judgment on the part of the kaiser's submarine commanders. In a few cases it is probable that the names will be set forth in electric lights for use at night.

To Protect Coast Towns.

The British military and naval establishments are displaying the greatest initiative and vigor and are taking every possible means to protect the country both ashore and afloat. Virtually all of the coast towns and cities are now under control of the military, which has issued a set of orders for the guidance of civilians in all emergencies. The people are warned not to take part in any fighting unless they are members of voluntary training corps. This move was made in anticipation of an attempt by the Germans to land troops somewhere in Great Britain while their submarine attacks are directing the attention of the army and navy elsewhere.

The German blockade has no effect upon the transatlantic liners. The Baltic of the White Star line steamed out for New York, showing little evidence of preparation against attack, except that she was carefully guarded by destroyers, who will convoy her out of the danger zone.

Great Britain, Scotland and Ireland are now surrounded by an almost solid cordon of warships and craft of every conceivable sort, each one ready for the submarine foe or for a sortie of the big German ships from across the North sea. France, which has a large number of destroyers and patrols, has stationed a great number of them along her coasts, and they will co-operate with the British in guarding the channel.

There is an evident disposition in Germany to give more consideration to the claims of neutrals and to admit that every precaution will be taken to spare neutral ships.

GERMANS ARE HARD PRESSED BY THE ALLIES

Official Report Tells of Number of Successes.

Paris, Feb. 18.—The allies are pressing the Germans hard at every point in France and Flanders, with both infantry and artillery. Military critics here believe the renewed activity on the western front is for the purpose of forcing the enemy to keep his armies there at present strength and to prevent him from detaching any force to send against the Russians.

The official communique issued by the French war office tells of a number of successes in violent attacking and counter attacking. North of Arras the French troops captured two lines of trenches and held them against all onslaughts, inflicting severe losses on the Germans, especially among the commissioned officers. At Rheims, positions previously won have been held and organized.

In Champagne, the capture of German trenches on a front of 800 meters is reported. At Mesnil-Hurlus and Beaulieu many prisoners have been taken, and the battle continues. In La Grurie wood, in the Argonne the French have advanced, and they have also progressed between the Meuse and the Aronne. In Alsace, the heights overlooking Sudel Kopf have been conquered. It is also announced that Fribourg-en-Brisgau has been bombarded by French fliers again.

SHIP BILL HITS SNAG IN SENATE

Washington, Feb. 18.—The amended ship purchase bill passed by the house failed to gain ground when it reached the senate. The amended bill failed to satisfy recalcitrant Democrats or progressive Republicans. Without support of either of these factions, it could not be passed. In this situation the Democratic leaders realized that nothing could be done unless some change in the measure could be effected in conference, but all their efforts to send the bill to conference failed.

EXPLOSION KILLS EIGHT MINERS

Wilkesbarre, Pa., Feb. 18.—Eight mine workers were killed and six others seriously injured by an explosion of gas at the Prospect colliery of the Lehigh Valley Coal company here. Two of the injured men probably will die. The accident occurred in the Red Ash vein at a point nearly two miles from the shaft. A heavy pocket of feeder gas that had accumulated behind a wall of coal followed the coal out and, leaping to the naked lights of the miners, ignited, causing a terrific explosion.

EMBARGO IS NOT LIKELY

Washington, Feb. 18. — President Wilson has been advised by Secretary of Agriculture Houston that there is no danger of a food shortage in this country as a result of the extraordinary demands by Europe upon the supplies of the United States. The president had called upon Mr. Houston for an opinion soon after he received Mayor Mitchell's letter urging an embargo on wheat exports. It is believed this opinion by the department of agriculture will end consideration of an embargo by the administration, at least for the present.

Watch your herd. Disease creeps in among hogs. Should you notice any of your herd that are not eating regularly, or do not act or look just right, put them in a pen by themselves and give special attention. It is best to pick out the well hogs and remove them to new ground, as disease is contagious.

OHIO CONVENTION OF METHODIST MEN

More strong men have been added to the great program of the Ohio convention of Methodist men to be held in Columbus March 17, 18, 19. Word has been received at headquarters that Bishop Stuntz of South America and George Sherwood Eddy will attend convention and deliver the two closing addresses the evening of March 19th.

Bishop Stuntz is one of the most brilliant speakers of this country. On his election to the Bishopric he was appointed to the South American field for a period of four years. Bishop Stuntz served a number of years in India and the Philippines. In the Philippines he was very prominent in establishing the Methodist missions which have had such remarkable success. The name of Bishop Stuntz added to the program should be the means of drawing a large number of Methodists of the state who are undecided about attending convention. With Dr. Mott, Dr. Taylor, Mr. Eddy, Mr. Doughty, Prof. Harry F. Ward, Dr. W. F. Oldham and the large number of prominent speakers who have been previously announced, the Methodist Men's convention will have the strongest program ever presented in Ohio.

PRELATE SEES END OF WORLD IN NEAR FUTURE

Baltimore, Md., February 18.—The Scriptural prophecy of the conditions that shall prevail near the end of the world seems to be in process of fulfillment, was the statement made today by Cardinal Gibbons.

He was commenting on the war news from Europe, which he said was terrible. "We cannot grasp its magnitude or what it means," he added. "Does it not seem that the Scriptures are being fulfilled?—'nation shall rise against nation, and there shall be sorrow throughout the world, and then shall the end come,'" he was asked.

"Yes it does," the Cardinal replied. "Loss of life in great numbers occurs only once in a while. But now, in this greatest war of the world, a thousand, nay, ten thousand lives are being sacrificed every hour the war continues."

HOW TO CORRECT FAULTY DIGESTION

Faulty digestion, flatulence, indigestion, dyspepsia and, in fact, most forms of stomach trouble—are almost invariably due to acidity and food fermentation. Drugs and medi-

cines which stimulate the digestive organs are practically useless in these cases because they act only on the stomach and do not affect the cause of the trouble—the acidity and fermenting food. To instantly neutralize the acid and stop fermentation many physicians and specialists prescribe a teaspoonful of bisurated magnesia, obtainable of all druggists and dispensaries, in a little water immediately after meals or whenever pain is felt. Since the discovery by an eminent specialist of this remarkable property of bisurated magnesia, it is being adopted as a standard antacid and food corrective in many hospitals as well as by many prominent medical men throughout the world. Preptics should always keep bisurated magnesia handy, as its use invariably insures painless, normal digestion.

The War Crisis
That this nation is face to face with a grave crisis regarding the threatened blockade of the English seaports and coast by Germany, no one can deny.
The government at Washington, regarding the proposal by Germany, has been compelled to speak decisively and to bring to the warring nations, with such emphasis that there can be no doubt about it, the fact that this nation is determined to insist on its rights on the high seas.
With regard to either the warring nations or the causes of war, the United States has not yet expressed any preference and does not now propose to do so unless it becomes absolutely imperative to maintain our rights.
Neutral nations have rights upon the seas the same as nations at war and it is only when those rights which this nation has so far succeeded in maintaining without friction, are threatened that the government enters a vigorous protest.
The course so far held by the national administration has been admirable and productive of great good.
In his notes to Great Britain and Germany, President Wilson has made it clear just what this nation expects and demands, and what it is entitled to receive at the hands of the warring nations under all the established rules of international warfare pertaining to neutral nations.
The notes are diplomatic, kindly, yet firm, and the people of this nation are a unit in standing back of the national government in its attitude.
History fails to record a single instance where the patriotic citizenship of America failed to approve, endorse and defend to the utmost the action of the central government in dealing with foreign nations.
No matter what our domestic differences may be they are all forgotten when we are called upon to reckon with a foreign nation.
In the Napoleonic wars and in the Franco-Prussian war this nation was called upon to insist upon its rights as a neutral and those rights were respected.
There is no reason to believe that the present crisis will terminate without serious trouble with Germany. This nation is not courting trouble with Germany, neither does it propose to submit to any unjust terms to avoid a conflict.
While the consequences of a breach of the friendly relations between this nation and Germany would be disastrous to this country, it would be much more disastrous to Germany, and it is unlikely that the German people will fail to see the justice of our demand and the consequences of a refusal and act accordingly.
The note of this government to Germany should receive a satisfactory answer and at once too.
It is probable that the good sense and the justice of the situation will compel action at once by the Kaiser's government.

Equal Suffrage Will Lead the Way to a Higher and Nobler Civilization
By GRACE WILBUR TROUT, State President of the Illinois Equal Suffrage Association

HAVE recently been credited with certain views which would indicate that I am against equal suffrage. These statements I never made, and they are absolutely contrary to what I believe. My real views are given below:
The democracy of the suffrage movement was demonstrated by the suffrage bill was passed in Illinois. It was not passed by any particular class. It was passed through the co-operation of Democrats, Republicans, Progressives, Socialists, Prohibitionists, Catholics and Protestants, Jews and gentiles and so called "wets" and "drys."
We may differ on questions of creed and we may honestly differ on questions of policy, but there are fundamental principles that touch human happiness and human life upon which we all stand together.
SOME TIME THERE WILL BE NO DIVERSITY OF OPINION AS TO THE QUESTION OF EQUAL SUFFRAGE. THE MISERY AND ANGUISH OF THE WORLD WILL FORCE HUMANITY TO A RECOGNITION OF THE TRUTH.
The futility of antagonism, hatred and opposition is shown in the many being enacted across the seas. Thoughtful people are beginning to realize that there is something radically wrong with our system of government and our so called boasted civilization.
MANY BELIEVE THAT IF THE MOTHER SPIRIT OF EUROPE COULD HAVE FOUND ADEQUATE AND PRACTICAL EXPRESSION THROUGH THE GOVERNMENTS OF EUROPE THE PETTY CONTROVERSIES BETWEEN NATIONS WOULD NOT HAVE LED TO THE DESTRUCTION OF THE FRUITS OF CENTURIES OF INDUSTRY AND THE SACRIFICE OF THOUSANDS AND THOUSANDS OF HUMAN LIVES.
We in Chicago have therefore made a New Year's resolution for the object lesson to the world of what can be accomplished by men and women of all nationalities and all creeds, working together in harmony, in the spirit of mutual helpfulness with an earnest desire for better social and economic conditions.

Poetry For Today
RUSES.
(Respectfully submitted to the British government.)
Great Churchill's plan to fool the foe is simple and unique—
You only take a neutral flag and hoist it at your peak,
Thereby a ship with funnels four looks just like one with two,
Because the pattern has been changed on her Red, White and Blue.
Now, cannot you improve on this, and so protect your towns,
As well as all your gallant ships at anchor in the Downs?
Old London, with the Stars and stripes, might well pass for New York,
And Baltimore for Maryland instead of County Cork.
To mouth of Thames (N-O-R-E) just add four letters more,
Then hoist the Danish ensign, and behold, 'tis Elsinore!
And Paris will be Washington if, on the Eiffel Tower,
They raise the flag of U. S. A. (a well-known neutral Power).
Your sailors might wear Leghorn hats, and, out upon the blue,
They'd look like sons of Italy (at present neutral, too);
And, if upon your King the Hun would try to work some ill,
With pickelhaube on his head he'd pass for Uncle Bill.

Antiquity of "A Regular Shindy."
The antiquity of many familiar terms is surprising when it is known. Many people are not aware that "What the dickens?" occurs in Shakespeare, but fewer still will be prepared to hear that the phrase "a regular shindy" is found in an author's note to a poem called "The Popish Kingdom," published in 1570. A writer quotes this note, which refers to the celebration of Maundy Thursday, "Midnight services are held in church, the lights are put out, and a regular shindy follows, men being beaten and wounded."—London Globe.

OHIO HAPPENINGS
As to Occupational Diseases.
Columbus, Feb. 18.—No direct recommendation that the workmen's compensation law be extended to cover occupational diseases is made in the report, transmitted to the legislature, of the survey of industrial health hazards made by Director Emory R. Hayhurst of the division of occupational diseases of the state board of health, under authority of the joint resolution adopted by the last legislature. Determination of whether the present law covers occupational diseases is pending in the courts.
New School For Deaf.
Columbus, Feb. 18.—Building of a new state school for deaf and dumb children near Newark, to replace the institution now located in Columbus, is being considered by the state board of administration, it became known. Dr. A. F. Shepherd estimates that \$1,000,000 would be needed for its completion. The buildings now occupied by the school for deaf and dumb then would be converted into a laboratory for the bureau of juvenile research.
Maximum Freight Rates on Coal.
Columbus, Feb. 18.—A bill shortly will be introduced in the general assembly establishing maximum freight rates on coal in intrastate commerce in Ohio. The proposal is a new one in Ohio. The general plan is the regulation of freight rates on coal by zones. For 300 miles or more the maximum rate is to be 85 cents a ton; for 175 to 300 miles, 80 cents; for 125 to 175, a rate of 75 cents a ton. Operators and workers are behind the bill.
Student Dies in Swimming Pool.
Columbus, Feb. 18.—Use of a pulmotor and other heroic measures failed to prevent the death of Paul G. Bartling, freshman in the college of engineering at Ohio State university, who was stricken with an attack of acute indigestion while swimming in the gymnasium pool. The boy was a son of Mr. and Mrs. E. G. Bartling of this city.
Ordinance Hits Cupid Hard.
Lorain, O., Feb. 18.—Council by unanimous vote ordered electric lights placed on Sixth street, where statuary trees with heavy foliage have served to make the spot attractive to candidates for wedded bliss. The two blocks known as "Lovers' lane" are to be brilliantly illuminated hereafter.
Mines Will Not Reopen.
Coshocton, O., Feb. 18.—Coshocton county mines and others in subdistrict six will not reopen on the open shop plan with eastern Ohio mines, operators here announced. "We will let our mines stay idle until there has been a settlement with the miners," said Operator Barnes.
Trampled by Cows.
Coshocton, O., Feb. 18.—William Rager, forty-nine, a farmer, is believed to be dying from injuries received when he was trampled by two frightened cows. Rager was leading two cows along a road when an automobile frightened them, Rager's skull is fractured.
Dives Under the Ice.
Cleveland, Feb. 8.—John Kriesberg, eighteen, dived twice under the ice in a pond to save the lives of Harry Harmon, eight, and Hyman Goldheimer, nine. The two boys were walking on the ice when it broke and they fell into the pond.

WORK OF THE IMPERIAL STAFF ASTONISHES BIG ODD FELLOWS

Three Thousand Witness Magnificent Work of Local Degree Staff at Canton Last Night—Pittsburg, Cleveland and Other Cities After the Staff—Admittance Fee Proves Successful and Panama-Pacific Exposition Trip is Assured.

After the most successful work ever conferred, and one of the most enjoyable trips, Imperial Degree Staff returned from Canton Thursday morning, arriving in this city by special train over the Pennsylvania railroad at seven o'clock.

The special train carrying the big staff and its carload of equipment, reached Canton Wednesday morning at 7:30 o'clock, and during the forenoon a big reception was held at the Canton Lodge temple, and at the noon hour a big feast was spread in honor of the nearly 100 members of the staff.

In the afternoon the entire staff was taken in automobiles, making a tour of the city and a visit to the tomb of Ex-President Wm. McKinley, and returning to the temple, where another banquet was served.

Following the banquet a mammoth parade, in which several thousand persons, led by three bands, took part, and then came the work of conferring the dramatic first degree upon a class of 88 candidates.

The work was conferred in the Canton auditorium, which seats 3,000 persons, and every available space in the mammoth auditorium was crowded with eager Odd Fellows, all anxious to witness the fine work of the Washington Imperial Degree staff.

A new departure—the first of its kind ever attempted in this state, had been observed in connection with the meeting. It was the charging of an admittance fee of 50c in order to defray expenses of the team. The success of the new departure was such that last Saturday night the entire seating capacity of the auditorium had been sold out, and scores of Odd Fellows could not obtain admittance. The work of the staff was pronounced the best that the staff had ever put on, and the best that the on-lookers had ever beheld. And the work was interrupted and delayed by continuous outbursts of applause.

Washington C. H., saying that Sarah McCann who has been drawing a blind pension in this county is his wife and that she is a resident of Fayette county, and not entitled to draw money from Ross county. He said that she stays in this county part of the time.

"He informed Mr. Alexander that if the pension which his wife has been drawing unjustly, according to his information, was taken away from her, that she would have to return to her home and husband.

"From the tone of the letter it seems that the husband wants his wife to return home and that she has been staying away on the charity of this county. The matter was referred to the county commissioners and they said that Mrs. McCann would be given a chance to return home as the pension will be stopped."

PHYSICIAN'S WIFE ASKS FOR DIVORCE

Charging extreme cruelty and neglect of duty, Mrs. Elsie E. Francis filed suit for divorce in the common pleas court of Clark county last Friday against Dr. William Francis, South Charleston. The petition sets forth that Dr. and Mrs. Francis were married in 1898 and have three children, aged 12, 8 and 6. It charges the defendant with having treated his wife roughly at times, and with failing to provide sufficiently for her and the children. Temporary and permanent alimony are asked. C. E. Ballard represents the plaintiff.

This family formerly resided at Sedalia, this county.—London Democrat.

In connection with the above case, local citizens will recall the unusual case at the Fayette hospital, some two years ago, when one of the Francis children nearly smothered to death when a silver tube in its throat was dislodged while Mrs. Francis and the child were visiting in this county, and extreme difficulty was experienced in replacing the tube in time to prevent suffocation.

Both Dr. and Mrs. Francis have many friends in this county.

GOODS NOT MOVED CHARGE DISMISSED

A case somewhat out of the ordinary was tried in Justice Craig's court, Thursday morning, in which Mrs. John Cherry was accused by the C. R. Parish Company of having moved mortgaged goods out of the county.

Evidence was introduced on behalf of the accused, showing that the goods in question had not been moved from the county, and that suit had been brought after it was learned that Mrs. Cherry had been in Wilmington a short time. When this was brought out in the testimony, Judge Craig dismissed the case.

The plaintiffs were represented by E. L. Bush and the defendant by Rankin and Rankin.

J. T. TUTTLE & CO.

In Social Circles

The Browning club held a regular meeting last evening and had a most interesting session, vice president, Miss Edith Gardner presiding. Mrs. Henness in Mrs. Sever's absence took charge of the Department of Social Science and Philanthropy.

"Men are great in stature as pleases God, but there nature is great or small as pleases themselves," was the motto for this month.

The first number on the program was the discussion of the question, "Are We Reforming Our Schools?" by Mrs. Jessie Persinger. She spoke of the changes from years ago in the common school work; of the establishment of the manual training and domestic science features, and gave glowing glimpses of what the future has in store for the schools of our country.

Chicago has been setting a telling example in that way.

Mrs. Lora Gregg sang two numbers that were beautiful, and one of her own compositions, "In Spring Time." Mrs. Henness had a large subject in "China's Great Transformation," and handled it very ably.

Nothing more remarkable in China today than the school work that has been done, and schools re-established under American methods. They look to America as criterion for all reform. It is interesting to note that three-quarters of all missionaries and of every known church, are in China.

At the next Browning club meeting the subjects of study will be decided upon for the coming year.

A most interesting Missionary meeting for the beginning of the year 1915, was held by the Presbyterian Missionary society yesterday afternoon at the lovely home of Mrs. Frank Chaffin and some sixty ladies were in attendance.

Assisting Mrs. Chaffin as hostess were Mesdames John Paul, Barchet, Briggs, Mary Millikan, Elliott, Bowen, Albert McCoy, Snider, Passmore, Bryant, Schneider, Coler, Burnett, Edwards, Bonham, J. Kelly.

The president of the society, Mrs. Hopkins, made some forceful remarks in regard to the Missionary work as it was looming up today and the two special topics, "The Indians" and

"Korea" bore special interest at this time. One friend of the president and of others here, Miss Jane Samuels of Syen Chyun, Korea, was held in special remembrance as she is doing most faithful work. Also letters were read from Mrs. Lyon, special missionary in Taining Chow, China.

Mrs. J. M. Willis was leader of the afternoon program and the papers presented and music filled up the hour both pleasantly and profitably. "The Disinherited Sons of America" was a topic ably handled by Mrs. J. T. Tuttle, showing both sides as it is in our country today and the responsibilities, also that the Indians reflect on the white race.

Mrs. Harry Sprenger showed how a second "Book of Acts" was developed in Korean Missionary work and very practical lessons were given for the Christian people of America.

The twenty-five years since Dr. Moffatt began missionary work in Korea have been telling years.

A letter was read to the society from the Presbyterian president, Mrs. Kay, and Mrs. Hopkins added to this, earnest suggestions as to the work the society is trying to do.

A little social time and delicious refreshments were enjoyed, finishing up the afternoon.

The Elks' Ladies' social session held in the Elk hall Wednesday evening was one of the especially delightful affairs of the season. Twenty-five couples were in attendance.

The session began with a box social. Following the box supper the guests engaged in "500". The tables were attractively adorned by baskets and vases of daffodils, and after an exciting session with the cards, Mrs. D. H. Barchet was awarded the prize for highest points, a handsome Elk souvenir spoon.

At ten o'clock the hall was cleared and from then until one the guests danced, Horstman and Ramsey furnishing the music.

The session was in charge of the Social Session committee comprised of Messrs. D. H. C. Bowen, W. M. Campbell and S. A. Leary, assisted by the ladies' committee, Mesdames A. J. Burgett, D. H. C. Bowen and Gerry Spragg.

Mrs. Elmer Junk is visiting Mrs. Carrol McCrea in Columbus.

Mrs. S. E. Simmons is entertaining her sister, Mrs. Addie Squier of Greenfield.

Mr. and Mrs. Will James arrived Wednesday evening from Muncie, Ind., summoned by the death of the latter's sister, Mrs. Sarah J. Briggs.

Mr. R. R. Sanderson arrived Thursday morning from Orville, O., where he has been on business connected with the Sanderson-Cyclone Drill Co.

LOCALS VICTORS BY SINGLE POINT

The Y. M. C. A. basketball five barely saved its hide Wednesday evening, coming victorious out of the hottest fray of the season with the Sabina representative team on Sabina's floor. The score was 30 to 29.

The battle was of tooth and nail quality throughout, but this, Washington's second victory out of the two games played, settles the contention for the present season.

The playing of the locals in the second half was nothing short of sensational. With the score 18 to 10 against them they conquered purely by veteran spirit.

Mobley led in the basket shooting with 9 fair fields, followed by Peele, of Sabina, with 6. Peterson steered 5 through the net. The lineups were as follows:

Washington—Peterson, Mobley, forwards; H. Smith, center; Thompson and Schlachach, guards.
Sabina—Gaskins, Martin, forwards; Peele, center; Bush, Pavey, guards. Referee, O'Brian.

The reappearance in the game of "Guinea" Thompson was the first since last season and he hasn't lost a bit of his old time prowess.

IS CHARGED WITH POINTING WEAPON

Percey Pugsley, a young farmer of the Milledgeville neighborhood, was placed under arrest upon an affidavit filed by J. E. Warren, in which Pugsley was accused of pointing fire arms in a menacing manner. The accused was arraigned before Justice J. D. McMahan and his trial set for February 24th.

It is claimed that following some difficulty between the two men, the accused pointed a shot gun at Warren. Pugsley was released on \$500 bond pending his hearing on the 24th. The offense is alleged to have occurred several days ago.

CHURCH OF CHRIST

The interest in the coming evangelistic meetings continues to grow. There were forty present at the Christian Endeavor prayer meeting and social Wednesday night, at the home of the pastor.

The attendance at the two meetings in Millwood the same night was 22, making a total of 62 for the evening.

The Ladies' Aid Society which met with Mrs. Mary Blackmore Wednesday afternoon, held a prayer service in behalf of the meetings. It was a spiritual service.

Neighborhood meetings have been arranged for Friday as follows:
2:30 p. m. Mrs. Lew Stolzenburg, Campbell St., leader, Mrs. Bowman Hostetter.

7:30 p. m. J. J. Gibson, Rawling St., leader, J. J. Gibson; John Sowers, E. Temple St., leader, Bowman Hostetter; W. B. China's Procession Would Be Endless.
The population of China has never been exactly ascertained. The latest census, taken some years ago, is said to yield a total of 410,000,000. Perhaps 300,000,000 would be a more nearly correct estimate; even that would abate no less than one-fifth of the human race. From this total it is easy to estimate that if the Chinese people were to march past a given point in single file the procession would never end long before the last of the 300.

Crape on the Door.
The custom of placing crape on the door of a house where there has been a recent death had its origin in the ancient English heraldic customs and dates back to the year 1100 A. D. At that period hatchments, or armorial ensigns, were placed in front of houses when the nobility or gentry died. The hatchments were of diamond shape and contained the family arms quartered and covered with sable.

Swish! Corns Gone!
We Use "GETS-IT!"
3 Seconds, 2 Drops - Corns Vanish!
For everybody with corns, there is in every drug store in the land one of the great wonders of the world, and that's "GETS-IT" for corns! It's the first and only corn-cure ever known that removes

"See! Foxy Trot, M'am! What? Corns Gone? Yes, I used 'GETS-IT!'"

any and every corn or callus without fail, without fussing with thick bandages, toe harnesses, corn-swelling knives, irritating ointments. It's applied in 2 seconds - 3 drops - 2 drops, the work is done, the corn shrivels up, your corn agony ends and the corn leaves forever! All the itching, the pains that dart to your heart's core, the crucifixion of having to wear shoes over screaming corns, the danger of blood poison from making them bleed by using knives, razors and scissors - gone at last! "GETS-IT" is the new way, the sure, simple, painless way. Try it for corns, calluses, warts and bunions. "GETS-IT" is sold by druggists everywhere, in a bottle, or sent direct by E. Bowser's Tramps
He Was Doing Them Good When They Turned on Him.
By M. QUAD.
Copyright, 1915, by the McClure Newspaper Syndicate.

"Do you know," began Mr. Bowser after dinner the other evening, "do you know what prevents men from reaching the north pole?"

"Several things," replied Mrs. Bowser, who, being the only one present, took it that the query was addressed to her.

"Yes, several things, but principally because of the cold. But for the awful temperature around the pole men could easily overcome the other difficulties. When the thermometer registers 100 degrees below zero, the life blood of the strongest man congeals. He must either retreat or die."

"Well, what of it?" she asked.

"What of it?" he repeated, with a chuckle. "If you overcome the cold you reach the pole, don't you?"

"And you have found a way of overcoming the cold, I suppose. It is two weeks since you had a fad, and I was wondering what would come next. If

way of encouraging a husband to seek for fame is to belittle every plan he originates. Had Columbus had a wife like you this American continent would have continued to be a paradise for woodchucks. Expecting nothing but ridicule and sarcasm in reply, I will, however, ask you a question or two. Suppose that a man going out in a temperature of 20 degrees below zero raises the temperature of his body thirty or forty degrees?"

"That would upset the cold," replied Mrs. Bowser.

"Your head is not filled with sawdust after all. Yes, it would work that way, and don't you see my plan? To meet the cold of the north pole we simply keep on raising the temperature. It's the simplest thing in the world, and yet nobody seems to have thought of it. Mrs. Bowser, consider the north pole as reached. Consider it reached by Mr. Bowser!"

He stepped back and bowed before her, and the cat came out from under the lounge and squinted at both and wondered whether it was a question of science or mousetraps.

"Yes, but how are you going to raise the temperature of the body a hundred degrees or more?" queried Mrs. Bowser.

"Just as easy as lifting up your foot. Do you see these lozenges. They contain no less than six different red-hot ingredients, including cayenne pepper. Two of them are warranted to make the blood fairly boil and cause the temperature around the pole to seem like an August day in America. I shall at once consult the government about sending out an expedition. The government provides the ship, and Bowser's lozenges do the rest."

"But you haven't tried them yet!"

"No, but I am about to do so. I wonder if our cook wouldn't eat one and then sit on a snow bank in the back yard and see how it worked?"

"Of course she wouldn't."

"Well, there are others. I'll find a couple of tramps who'll sit out all night for a quarter apiece. I'll run a pair of them in at once and get the experiment under way."

"You'd-you'd better wait!" she faltered as he started for the door.

"Why wait?" he asked. "It's a cold night, with snow and tramps at hand for experiment. If an expedition is to be sent out it will wish to start in the spring."

"But it will end in a row."

"It will end in my reaching the north pole and place the name of Bowser alongside of that of Peary. You must keep quiet and let me run this thing."

He put on his hat and overcoat, and it did not take him five minutes to find a couple of tramps who were slogging about between his house and the corner. When he explained what he wanted and his willingness to pay them both cheerfully accompanied him. As they stood with their backs to the range in the kitchen and hungrily eyed the remains of dinner he took their temperature and pronounced it normal and then escorted them to the back yard. There were snow banks against the fence, and he selected positions and sat them down. It was a keen, cold night, one made to order for such an experiment.

"Now, then," said Mr. Bowser as all was ready, "I take it that you feel cold?"

"We do!" replied the men in chorus through their chattering teeth.

"That is splendid. I estimate that there is a difference of at least forty degrees between your temperature and that of the weather. You will now each of you take a lozenge in your mouth and let it slowly dissolve. In two minutes your blood ought to be the same temperature as the weather; in five you ought to imagine that robins are singing and daisies blooming around you."

As Mr. Bowser was not experimenting on himself, he discreetly retired to the warm atmosphere of the kitchen and took his stand at a window. He had scarcely begun his observations when one of the tramps rolled over and began to kick like a horse tangled up in his harness, while the other sprang to his feet and spat and spluttered and coughed and crammed his mouth full of snow.

"What are you fellows up to?" shouted Mr. Bowser as he rushed out. They gave him no heed. They seemed to be acrobats let loose, and they went through more antics than if they had picked up a dozen hot horseshoes. It was five minutes before either of them could speak, and then one cooled his mouth with an icicle hanging to the clothesline and stuttered:

"B-b-boss, what s-s-sort of a g-g-game is this?"

"Yes. What sort of a g-g-game?" added the other as a snowball melted in his mouth.

"It's no game at all. It's an experiment, as I told you. What have you done with those lozenges?"

"S-s-spit 'em out, darn ye!"

"Yes, s-s-spit 'em out!"

"But you mustn't do it. These are to raise the temperature of your blood until it affects the temperature of the atmosphere. If you'd kept sucking the lozenges you'd have been perspiring by this time. Sit down and try it again."

"Bill," said the first as he continued to eat snow and draw in long breaths of the frosty air, "does it look like a cold, blooded attempt to burn up the vitals of two respectable gents?"

"It do, Sam; it do."

"And by the burning up our vitals take away our appetite?"

"That's the game."

"If I was playing any game would I promise you a quarter apiece?" asked Mr. Bowser.

"It's my solemn opinion that ye would!"

"That's our solemn opinion!"

Mr. Bowser was about to protest and increase his cash offers when the two gentlemen with burned vitals fell upon him. The three went down together, and Mrs. Bowser, looking from a back window, and the cook and cat looking from the back door, could see nothing for the next two minutes for the cloud of snow in the air. Then the two tramps detached themselves from the circus and climbed the yard fence, and the household went out to look for Mr. Bowser. There were thousands of traces of him on hand, but it took three minutes to discover his actual presence and dig it out from under the snow. He had been thumped and kicked and choked, but life had not departed. He soon rallied and sat up, and after being helped to his feet he made his woozy way to the kitchen and thence upstairs. He did not ask what had happened, and Mrs. Bowser gave him a rest of fifteen minutes on the lounge before she said:

"With your temperature at the point it is do you think you can reach the north pole?"

He lifted up his head and glared at her.

"I suppose the government ought to be notified at once, and if you don't feel well I can do it myself."

Another glare, followed by a gritting of his teeth, and it was ten minutes before she observed:

"I've told the cook to heat witch hazel to wash off the blood. Do you wish for any particular temperature?"

But Mr. Bowser had grown weary of the north pole and fallen asleep, and she counted seven different scratches on his nose and wondered how he'd look on the street on the morrow.

HOOKING A SHARK.
It's an Exciting Sport Even if One Doesn't See the Fish.

Fishing for sharks off the pier at Palm Beach is a Broddingnagian sport. You fish with clotheslines and a hook the size of a split anchor. Half of some great fish is slipped on your hook for bait. You throw it off the pier and fasten the end of the line to the railing and then take out your detective story and read.

Sometimes you get a bite; sometimes you don't. At evening the colored gentleman in charge of the shark fishing on the pier goes around and takes in the lines. That in itself is on rare occasions an exciting sport.

Once a New York vacationist was standing on the pier enjoying the sunset after a day's fruitless angling when he heard a shout from the colored gentleman, who had discovered a shark on one of the lines that had been left out. The colored gentleman was having trouble in handling the beast, so the New Yorker went to his assistance. Together they pulled and hauled at the line in vain. Another man on the pier joined in, and then the three braced their feet against the rail and tugged for all they were worth. But in spite of all they could do the line slipped gradually through their fingers.

Finally all the slack was used up, and the rope, coming taut against the rail, snapped like a thread. The New Yorker has always wished he could have had just one look at that shark.

SCHOOL TEACHING EXHAUSTING WORK

Miss Rosa M. Keller's Struggle to Keep Up—How Vinol Helped to Ward Off Nervous Breakdown.

Alburtis, Pa. — "I am a teacher in the public schools and I got into a very nervous, run-down condition. I could not sleep and had no appetite. I was tired all the time."

"My sister told me how Vinol had built up her nephew and asked me to try it. I did so, and within a week after taking Vinol my appetite improved and I could sleep all right and now I feel well and strong."

"Vinol is certainly a fine medicine and even the doctors say it is a good tonic." — ROSA M. KELLER, Alburtis, Pa.

The reason Vinol restored Miss Keller to her normal health was because in a natural manner it sharpened her appetite, aided digestion, strengthened her nerves, and as a result brought the refreshing sleep she needed.

If there is anyone in this vicinity, run-down, weak, nervous, worn out and who cannot sleep, we ask you to try Vinol, our delicious cod liver and iron tonic, on our guarantee to build you up and make you feel better, eat better, sleep better, or return your money.

ATTORNEY CHOSEN TO DEFEND HOWARD

William Howard, charged with first degree murder, faced Judge Carpenter in Common Pleas court, Thursday afternoon, and Attorney Nye Gregg was appointed to defend the man.

Howard was very calm as he appeared in court and his appearance gave little hint of the grave crime with which he was charged.

Indications are that the case will be hard fought as it is claimed that virtually all of the evidence is circumstantial.

DEATH CLAIMS R. W. VINCENT

After several days of critical illness, Mr. Robert W. Vincent, aged 75 years, passed away at the Fayette hospital at two o'clock Wednesday afternoon, death being due to a complication of diseases from which he had suffered for several years.

The deceased was formerly one of Fayette county's best known citizens, having resided in this county nearly all of his life with the exception of the past ten years, which he has spent on a farm near Waverly. He served the public several years in the capacity of county commissioner, and held a number of minor elective offices, always showing a spirit of progressiveness which characterized the man.

Mr. Vincent was a member of Company A, First Ohio cavalry, and served nearly five years in the army under General Kilpatrick, passing through some of the bloodiest battles of the great Civil War.

The deceased had resided on a farm in Marion township from boyhood until some ten years ago, and his father also had resided in the same locality from boyhood.

He leaves several brothers and sisters. His first wife passed away many years ago, but later in life he married Mrs. Allie Mills, formerly of this city, and she was a great comfort to him during his last years, giving him devoted attention and remaining at his bedside until the last.

Seven children survive Mr. Vincent, Mrs. Lizzie Ware, Marion township; Miss Mae Vincent and Coke, on the home farm; Earl, near Plano; Wade, west of this city, Mrs. George Darlington, south of town, and Mrs. Ralph Timmons, of New Holland. The sisters of the deceased, are Mrs. Deming Day, Wichita, Kan.; Mrs. Anna Miller, Mobile, Ala., and another sister at Elkhart, Ind.

Funeral services will be held Friday afternoon at the former home of the deceased, in Marion township, and interment will be made in the New Holland cemetery.

AID SOCIETY MEETS

The February meeting of the Mite Society of Wesley Chapel was held at the M. E. Parsonage.

The new officers entered into the duties which their respective offices bring to them. The meeting was well attended, all those present enjoying the hospitality of the hostess and the assistant hostesses, Mesdames Hughey, Miller, Near, Hayes, Boyers and Paul.

An interesting program was rendered, consisting of a piano solo by Miss Mary Edge; reading by Mrs. Sanderson; duet, by Misses Mary England and Norma Dodd; recitation, by little Helen Huntsberry; reading, by Miss Frances Blackmore. Refreshments were served.

REVOLT AMONG HINDOOS

By Associated Press.

Tokio, Feb. 18.—A revolt has broken out among the Hindoo soldiers at Singapore, one of the Strait Settlements belonging to Great Britain, according to dispatches received here today.

Marines were landed at Singapore from Japanese and French warships and some fighting has taken place between the mutineers and the men from the war vessels.

The Hindoo mutineers numbered 800, but later half of this number is reported to have surrendered and the revolt is said to be subsiding.

MARKER DEFENDS HIS DEPARTMENT

By Associated Press.

Columbus, O., Feb. 18.—State Highway Commissioner James R. Marker told the Howard Department Survey Committee today that the 15 employees eliminated by the appropriations bill, as reported by the House Finance Committee, would reduce the work of the department between 25 and 50 per cent.

He also defended his department against charges of extravagance and inefficiency.

GROCERIES--QUEENSWARE

Austrian and Bavarian DINNER SETS!

If you are thinking of buying a set of dishes this spring you will do well to see the two new patterns in Dinnerware we are showing this week.

One in White and Gold Bavarian China

One in Pink and White Austrian China

Due to war conditions abroad shipments of China from Austria and Bavaria have been very uncertain.

We received import shipments this week of the above patterns, however, and can fill your order complete.

100-piece set Gold and White Bavarian China - \$40.41

100-piece set Pink and White Austrian China - \$33.17

Above patterns are open stock from which you may select any pieces you wish.

Made Over.
"I'm all out of kelter," declared the typewriter man. "My arm feels loose, my back seems twisted, and my left leg is shaky. What would you advise?"
"I think I'd get myself rebuilt," suggested the automobile manufacturer.—Kansas City Journal.

Reasonable.
The Boss—Take that suit at \$10, and I'm losing money. Customer—Well, I'll take it; but how much are you losing?
The Boss—Well, I'll tell you. I paid \$5 for it and have had to store it, brush it, insure it and advertise it for ten years. Figure it out for yourself.—New York Globe.
